

Atlas Travel

Atlas Travel is a Dublin based Travel Management Company who've been in the business for over 50 years, managing corporate travel programmes with a team of over 70 travel professionals. They're quick to offer clients smarter travel solutions through their expertise and tailored service both offline and online. Recognised by Deloitte as a "Best Managed Company 2017" they've also been voted "Best Corporate Travel Management Company in 2015 & 2016 by the Irish Travel agents association.

The challenge

Booking business travel has become a burden for many corporate travellers. A simple booking can take up to two hours to complete with complicated and unclear booking flows, limited content sources and often higher booking prices. This adds up to many corporate travellers choosing to book outside their travel programmes, meaning spend management and duty of care becomes increasingly challenging for the corporations to keep on top of.

The solution

In partnership with Amadeus, Atlas Travel offers their customers Amadeus cytric Travel & Expense, featuring an Online Booking Tool, Expense Management System and Duty of Care services in one integrated solution. It provides their users with familiar leisure travel style booking flows, wide content choices from both GDS and direct connections along with complete rail coverage. It makes business travel simpler on any device, reducing the planning to a matter of minutes.

As a result of Atlas travel selecting Amadeus cytric Travel & Expense they have been able to adopt a lean implementation methodology so that their clients can be live within just 7-14 days, benefitting from Amadeus's agile working environment with system releases every six weeks.

The results

Atlas Travel have now implemented a number of corporate clients onto Amadeus cytric, with companies benefitting from 70% adoption levels within weeks of going live. One customer has seen **73% usage within just three weeks**, allowing them to realise savings much faster and giving their travellers the confidence in the selected booking tool.

As an early adopter of leading technology, Atlas Travel are keen to invest in their smart solutions with a promise to design, plan and book roundtrip business trips door to door in seconds across any device. These give travellers flexible booking channels on the move and end to end processes with expense management hand in hand with their travel bookings, backed up with expert round the clock virtual support.
